National FFA Officers Visit With President Eisenhower
ALABAMA CATTLEMEN were entertained during their annual convention in Birmingham by the Evergreen FFA String Band. Their music was featured for more than one hour during the banquet. Members of the band from left to right are: Marvin Garvin, Billy Jernigan, Homer Riley, Hugh Ellington and Johnny Arnold. Their local Adviser and leader is B. F. Rawls of Evergreen.

Graduates Select Your Occupation

Many FFA graduates have already chosen farming as their life’s occupation. Others will select occupations closely related to farming. The list below should be helpful in making a final decision.

ON THE FARM OCCUPATIONS
1. General Farmer
2. Dairy Farmer
3. Fruit Farmer
4. Livestock Farmer
5. Poultry Farmer
6. Truck Farmer

OTHER AGRICULTURAL OCCUPATIONS
7. Agricultural Chemist
8. Agricultural Economist
9. Agricultural Engineer
10. Agricultural Engineer (Electric Power Companies)
11. Agricultural Statistician
12. Agronomist
13. Auctioneer
14. Beekeeper
15. Buyer (Groceries, Produce, Meats, etc.)
16. Conservation Aid
17. County Agricultural Agent
18. County Supervisor (Farmers Home Administration)
19. Dairy Herd Improvement Association (DHIA) Supervisor
20. District Manager for Chain Grocery Stores
21. Entomologist
22. Extension Specialist
23. Farm Journalist
24. Farm Agent for Banks, Railroad, Radio, Etc.
25. Farmer Cooperatives
26. Feed Salesman
27. Feed Store Manager
28. Feed Store Clerk
29. Field Man for Creamery
30. Florist
31. 4-H Club Agent
32. Gardeners and Grounds Keepers
33. Greenhouse Manager
34. Hardware Merchant
35. Hatchery Manager
36. Inseminator
37. Land Appraiser
38. Landscape Architect
39. Livestock Buyer
40. Marketing Specialist
41. Nurseryman
42. Office Assistant in PMA Offices
43. Principal Clerk in PMA Offices
44. Rural Representatives for Electric Power Companies
45. Sanitarian
46. Soil Conservationist
47. Soil Scientist
48. Tree Surgeon
49. Veterinarian
50. Vocational Agriculture Teacher and FFA Adviser

(Editorial from the Birmingham News, February 22, 1953)

This week of February 21-28 belongs to the Future Farmers of America. It is the 25th anniversary of the world’s largest farm boy organization. It is a big week for the 360,000 members in continental United States, Hawaii and Puerto Rico.

It is a big week in Alabama, too, where 12,095 farm youths belong to 252 FFA chapters. They join with other FFA members in various ways, in recognizing George Washington as America’s first scientific farmer, and in special observances in rural high schools where vocational agriculture is taught.

Some of Alabama’s FFA members, officers of the state organization, presidents of county chapters, are carrying fresh memories of a visit to Birmingham last Thursday and Friday as guests of the agriculture committee of the Birmingham Chamber of Commerce. Probably they understand better, as a result of their visit here, how Alabama’s agriculture and industry are bound together in a close and mutually helpful economy.

Alabama is, as it has always been, an agricultural state. More of the state’s wealth comes from crops and livestock than from any other single source. That is likely to remain true for a long time to come despite the state’s gratifying industrial and commercial progress.

It is good, therefore, that many thousands of the state’s youths are training themselves to be better farmers. The state, as well as they, will be richer and happier because they are now learning, through textbooks and practical experience and wise guiding, sound principles of farming.

But FFA members learn more than this. They learn also how to be good citizens. They learn to relate farming to community life, to take part as voters and leaders in the business of democracy.

In short, Alabama, in honoring FFA this week, is honoring itself and pointing the way to a better future.

Opportunities for you graduating FFA members will be limited only by your vision of what your future may become, your abilities and how you use them, your character and determination.

You are now starting out on one of the most exciting adventures you will ever have. You will discover that earning a living can be fun. — But, if you want to get the most out of life, you will have to organize your thinking. You will need to use foresight in acquiring those skills which will be most valuable to you later. You will have to plan your life well and then follow your plan.

Having a definite occupation or goal in mind will give you a running start over others who have not thought about their future. Fortunately, some of the graduating FFA members know already what they want to do. They are now making definite plans to follow that course.

You FFA boys are now completing an important phase of your life. You are the cream of the crop. It is good to know that many of you believe in the Future of Farming as stated in the FFA Creed. It is good to know that most of you will either be a farmer, or you will specialize in some phase of agriculture for your life’s work.

It isn’t expected that all FFA members will be farmers. A good percentage of you will farm, however. It isn’t expected that all FFA members will go to college and it isn’t necessary that everyone go to college. Whether or not a person goes to college depends to a great extent on the individual himself. It depends on his likes and dislikes. It also depends...
State FFA Convention

THE ANNUAL State FFA Convention dates have been set by the executive committee for June 4, 5, and 6. It will again be held at Auburn.

Each chapter will have one delegate and others to attend will be candidates for State Farmer Degree, officer candidates, local advisors, award winners, and those participating in contests and other programs at the convention.

SHOWN ABOVE is the Vincent FFA exhibit that placed 3rd at the Alabama State Fair in Birmingham.

My Trip to Florida

By WINFRED DAVIS

My trip to the Florida State Fair as a guest of the Atlantic Coast Line Railroad began on the morning of February 5th, when Mr. D. C. Fulton, Agricultural and Live Stock Agent for the ACL came for me at my home. Traveling with him was Miss Colleen Sellers of Ashland representing the FHA of Alabama.

We boarded the train in Manchester, Georgia and traveled from there to Jacksonville, Florida, where we were met by representatives from five Southern states. We traveled by pullman from there arriving in Tampa at 6:45 Friday morning. We registered at the Hotel Hillsborough.

Friday morning we visited the fairgrounds where we saw many interesting exhibits. Pictures were taken by the Coast Line’s photographer who traveled with us. We spent little time at the fair Friday morning since we were coming back to spend the day Saturday.

That afternoon we toured part of the City of Tampa and surrounding area. The Chamber of Commerce was our host. The places of interest visited were:

1. The docks, where we watched sulfur being unloaded into box cars from two ships.
2. Ybor City. The Spanish part of town where Spanish is the principal language spoken.
3. The Hav-A-Tampa cigar factory, where we watched the interesting process of cigar rolling. Both by machine and by hand.
4. Brandon School, which has the largest FFA chapter in the State of Florida. They were making ready to show their prize Hereford male at the fair.
5. Orange groves, where we were privileged to pick oranges from the trees.
6. Dickman Farms, where we were given a challenging talk on agriculture, by Mr. Paul B. Dickman. Mr. Dickman plants 2,000 acres of vegetables annually using the two crop system, that is, harvesting two crops from the same land each year.

Friday night we were honored with a dinner at the Las Nova Dotas, a famous restaurant in Ybor City.

Saturday morning we again went to the fair where we took more time in seeing the things of interest, especially the Citrus exhibits.

In the afternoon, we were platform guests of the Florida State FFA Association. We also watched the auto races and grandstand acts.

This completed our stay in Tampa and we left for our homes Saturday night.

I want to express my appreciation to the ACL Railroad for this most enjoyable and educational trip.

Covington County Field Day

(Feb. 11, 1953)

8:45 - Introduction of County Officers and guests
9:00 - FFA public speaking contest
10:15 - FHA Dress Revue
11:20 - FHA Talent
12:00 - Lunch
12:30 - FFA String Band Contest
12:45 - Selection of Miss FHA FFA Quiz
1:15 - FFA Quartet Contest County FFA Star Farmer presented
1:30 - Dismissal

Fat Calf Shows

MOBILE -
Tuesday and Wednesday, April 7-8

BIRMINGHAM -
Thursday and Friday, April 30, May 1

FFA GRADUATES...Continued

on his goals and his ability to reach these goals. It is very important for you who do go to college to have a definite goal or a definite career in mind. You should have a broad understanding about the different courses offered in college and what they will prepare you to do.

Life is Full of Adventure

Life is a series of exciting adventures and you will soon be entering one of the most interesting of these—that of earning a living.

To get the most out of life you will need to be a good thinker with foresight which will help you in forming a definite plan for your life. Those who have definite plans for the future are those who are most likely to succeed. Fortunately, some of you already have such plans made. You have indicated that you love farming by being an active FFA member over a period of years.

All of you will not be farmers. However, many of you will enter fields of occupations closely related to farming. To be best qualified to enter many of these occupations, a college education will be necessary.

A 4-year course in agricultural education is good training for any farm boy who is planning to enter these related occupations.

HERE IS the Sidney Lanier Dairy Judging Team as they strive for the championship at the District Dairy Show. Shown at the extreme right is their local advisor, W. C. Locke.
THE FALKVILLE Chapter exhibit (above) won 2nd place at the Alabama State Fair.

THE EXCEL Chapter exhibit (above) won a 3rd place award at the Alabama State Fair.

THE HUBBERTVILLE Chapter exhibit (above) also won 3rd place award at the State Fair.

Ag Journalists Needed
(From National Future Farmer)

This year only a few — a pitifully few — farm boys are going to be training for a field in which they stand head and shoulders above everybody else.

Agricultural journalism offers farm youth a powerful opportunity to influence many thousands of people — rural and urban — toward better farming and better living. Yet, many a farm boy has ignored the possibilities of journalism simply because he thought he had to be a Louis Bromfield to succeed. If he didn’t make “A” in his English, he figured he’d get an “F” in journalism. Let’s get rid of that fallacy right now.

It is true that any boy who wants to be a journalist should know how to use English reasonably well. He should be able to describe things and relate events so that others can picture what he has seen and experience what he has felt.

But for ag journalism, he should do it simply. The boy who can write a letter from the county fair and make his girl wish she were there or the boy who can write such a report on his vo-ag project that, even if he’s not on hand to read it, the other fellows will understand the entire procedure could probably become a competent agricultural writer.

There’s nothing fancy about ag journalism. It is a practical, simple method of giving information, making suggestions, relating ideas.

One of the most important requirements is that a boy like farming and farm people. Along with this, he should like to dig out facts, to keep on the inside track of new developments, and to talk with every type of individual.

Ag journalism isn’t just writing. There are important positions for which writing is not a prerequisite. The boy who knows farming and likes selling could specialize in advertising, promotion, merchandising, circulation.

Farm journals desperately need men with such training plus a knowledge of agriculture. So do rural papers and the big city dailies. One metropolitan newspaper looked for almost two years before it recently found a suitable agricultural director, and I know of at least two others that are still looking.

These same opportunities exist in radio and television. Many stations are putting a premium on writers, program directors, announcers, and time salesmen with agricultural background.

There are many trade journals in the farm field. Implement Record, Seed World, Fertilizer Digest for example — and over a hundred breed journals constantly on the lookout for ag journalists.

Agricultural associations and cooperatives offer editorial and promotional jobs handling publications and membership.
affairs. Advertising agencies merchandising farm or allied products need copy writers and account men who know agriculture. An increasing number of fairs and expositions are providing year-round promotion and public relations positions. And don’t forget that the state and federal government services need information specialists.

Does an ag journalist actually need an ag journalism major in college? Can he succeed with a major in a straight ag field and an ag journalism minor? Your choice depends on your abilities and plans based on a discussion with the dean or department head of the school you wish to attend. At Cal Poly, we have students doing both. In general, for the student planning only four years of college, we recommend an ag journalism major (our ag journalists take about one-fourth of their work in ag courses, any way). For the boy willing to spend around four and a half years, we often recommend a double major of ag journalism and straight ag. For the student who hasn’t selected another agricultural field, we advise animal husbandry as the most useful second major for men expecting to work in the West.

What high school subjects are needed? In addition to the standard subjects, all the agriculture, English, and public speaking possible. Typing is also an essential. And while it’s not necessary, the journalist with shorthand has a mighty potent ace up his sleeve.

Is it worth all the time and trouble? Not long ago, Texas A. and M. Agricultural Journalism Department made a nationwide survey of schools offering this type of training and found the demand for graduates far exceeded the supply. During the past year, for example, Oklahoma A. & M. had only five ag journalists to fill 20 openings. Kansas State had a ratio of 50 to seven, and other colleges faced similar shortages.

From the beginning, American agriculture has suffered from its lack of “trained voices.” Too often agriculture has been at the mercy of those who knew and cared little about it. In this time of constantly higher food costs, greater consumer resentment, more taxation, wider suburban infiltration of rural areas, and stronger pressure blocs, it is most important that agriculture find its “trained voices” to help knit our nation closer together in rural-urban understanding.

---FFA---

JASPER

Walker County Cattlemen’s Association is getting a boost in membership from the Future Farmers of the Jasper FFA Chapter. Sixteen FFA members have been submitted for membership, taking their places among the leading farmers in their communities.

APRIL-MAY, 1953

HERE IS the Henry County Veterans Vocational Agriculture exhibit that placed 2nd at the Alabama State Fair.

THE CLARKE COUNTY Veterans Vocational Agriculture exhibit (above) won 3rd place award at the State Fair.

ALSO WINNING a 3rd place award was the Perry County Veterans Vocational Agriculture exhibit (above).
Shown above is the Aliceville Chapter "Keep America Green" float used in their parade.

Ramer Members Provide For Their Quail

Future Farmers at Ramer High School in Montgomery County are looking forward to the quail hunting season later on this fall, and they are doing something about it now.

Since the quail population has been decreasing in the Montgomery area, the boys have been putting forth efforts to make the birds more plentiful. Twenty-two boys recently made plans to plant 18 1/2 acres with bicolor lespedeza this spring. They realize that lespedeza is not only the favorite food of quail and other forms of wild life, but it is an additional source of farm income.

The Soil Conservation Service is providing the plants and seeds for all interested farmers at no expense.

Entire Pell City Chapter Entered Quiz Contest

The entire membership of the Pell City FFA chapter entered the FFA quiz contest. They also held a tractor clinic and FFA day recently, making a study of tractor maintenance and operation. In the tractor driving contest, Lewis Duck won first place, Fall Fundaburg placed second and Ray Tucker was third. E. L. Riddick of the Standard Oil Company gave a discussion on proper lubrication and care of a tractor and performed such jobs as cleaning air filters, etc.

Scholarship Available

The national fraternity of Alpha Gamma Rho offers annually to an outstanding FFA member, a cash scholarship of $200.00 to be applied toward a full term course at any accredited College of Agriculture. This is awarded to the Future Farmer boy ranking highest in accordance with the terms of the Scholarship.

Anyone who is interested in the plan of selection should write to the National Secretary of Alpha Gamma Rho Fraternity, 706 Michigan Avenue, Urbana, Illinois, for details.

Linden Makes Progress

The demonstration plot recently established by the Future Farmers at Linden High School has already begun to show progress. They have 1,000 bicolor lespedeza seedlings heeled-in and ready to go on the plot and 1,000 slash pine seedlings have been shipped and will be placed on the area. Rose cuttings are rooting and will be budding by June. The Vo-Ag students also plan to grow out several different types of shrubbery cuttings in the area.

The traveling man’s eyes bulged when he entered a small general store in a distant community and saw a dog, seated in a chair, pushing discs about on a board with his front paws.

“You mean to tell me,” he inquired incredulously, “that your dog is playing checkers?”

“Sure,” replied the proprietor, “I learned him.”

“Why, man, do you know what you’ve got there?” asked the salesman. “You could go into vaudeville and clean up a fortune with a dog as smart as that.”

“Oh, I don’t know,” sniffed the storekeeper. “He’s not so smart. I beat him the last three games.”

Finding one of your own faults and doing something about it is better than finding a dozen of your neighbor’s.

Salvatore found the going easy when applying for his citizenship papers until he came to the question about Old Glory.

“What is it,” asked the judge, “that you always see flying over the courthouse?”

“Pejns!” replied Salvatore confidently.

A motorist, charged with driving through an intersection without due caution, explained, “I always hurry through intersections to get out of the way of reckless drivers.”

Mary had been promoted to the third grade.

Meeting the second grade teacher, whom she had liked very much, she said, “Gee, Miss Kate, I wish you were smart enough to teach me this year, too.”

Small boy: “I’m not afraid of going to the hospital, Mom. I’ll be brave and take my medicine.”

Mother: “That’s my good boy!”

Small Boy: “But I ain’t going to let them palm off a baby on me like they did on you. I want a pup.”

Every time one man puts a new idea across, he finds ten men who thought of it before he did, but they only thought of it.

Caller: “These flowers are for the phone girls.”

Boss: “Thank you, sir. You compliment our service.”

Caller: “Compliment nothing! I thought they were all dead.”

Teacher: “Frank, what is a cannibal?”

Frank: “Don’t know, ma’am.”

Teacher: “Well, if you ate your father and mother, what would you be?”

Frank: “An orphan, ma’am.”

“Is your husband a good provider, Dinah?”

“Tessum, he’s a good providah all right, but I’m allus skeered dat nigger’s gwine ter git caught at it.”

A woman was mailing the old family Bible to her brother in a distant city. The postal clerk examined the heavy package carefully and inquired if it contained anything breakable.

“Nothing but the Ten Commandments,” was the quick reply.

The Mrs.: “I was a fool when I married you.”

The Mr.: “I suppose you were, but I was so infatuated at the time I didn’t notice it.”

Two breezy Westerners who visited Wall Street in search of funds for mine developments, were introduced to a shrewd financier. “Suspicious old chap, isn’t he?” remarked one, when they had left him.

“I didn’t notice. How is that?”

“Didn’t you see how he counted his fingers after I had shaken hands with him?”

“As bad accounts bankrupt business, so worthless cows will break a dairyman.”

A Good Citizen of Your Town

Have you ever thought about the part your Telephone Company plays in the life of this Community, the State and the Nation? Here are some things it does:

- Pays good wages to its employees
- Pays large amounts in taxes that go to the support of government, education and public institutions.
- Provides the best possible telephone service at the lowest possible cost.

Accepting the responsibilities of citizenship, we believe, is an important part of good telephone service to this Community.
Avoid substitutes. Gum Turpentine is the real thing—the original, standard paint thinner preferred by 9 out of 10 painting contractors (men who know paint best). Use Gum Turpentine for every paint job and for cleaning woodwork, furniture, floors, windows, paint brushes, etc. Disinfects. Sold wherever paint is sold and at variety, drug and grocery stores.

71 Walton St., N.W.
ATLANTA, GEORGIA
WINFRED DAVIS, STATE PRESIDENT, addresses the Birmingham Agriculture Club and County Presidents in Birmingham.

FFA-FHA party; added 2 new pieces of equipment to shop.

BUTLER—advanced 13 Green Hands to degree of chapter farmer; added 24 units in woodworking to Ag department; entered FFA quiz contest; put out 6,000 bicolor plants.

DOUGLAS—sent delegate and singer to Birmingham as guest of Chamber of Commerce; put on 2 radio programs; won second place in county quiz contest; received wiring panel from TVA; put out 14,000 bicolor plants and 4,000 cedars.

DOZIER—planned program to give at PTA which included a film on rabies; ordered 3 Green Hands and 29 Chapter Farmer pins; purchased 150 fruit trees.

EAST BREWTON—held county public speaking contest and the quartet won in the county eliminations.

CIVILIAN—initiated 24 new members; built bleachers in the high school gym; painted the chapter room and ordered 2 welcome signs.

DOUGLAS—sent delegate and singer to Birmingham as guest of Chamber of Commerce; put on 2 radio programs; won second place in county quiz contest; received wiring panel from TVA; put out 14,000 bicolor plants and 4,000 cedars.

DOZIER—planned program to give at PTA which included a film on rabies; ordered 3 Green Hands and 29 Chapter Farmer pins; purchased 150 fruit trees.

CONCRETE IMPROVEMENTS

Inexpensive concrete improvements can work wonders in helping you increase the productivity and profits of your farm.

What are the needs on your farm? Perhaps one of the improvements shown here. Or a new dairy barn floor, barn foundation, paved bArn yard, driveway, manure pit or poultry run.

Firesafe concrete improvements are easy to build. They make farm work easier and more profitable year after year. Plan today for greater profits with concrete.

Concrete construction is moderate in first cost, requires little or no repair and lasts a lifetime. As a result concrete delivers true, low-annual-cost service.

If you need help, get in touch with a concrete contractor or building material dealer in your area. Fill in the coupon below for informative free literature.

1204 Watts Building, Birmingham 3, Alabama

PORTLAND CEMENT ASSOCIATION

A national organization to improve and extend the uses of portland cement and concrete... through scientific research and engineering field work

Please send free booklets on these concrete improvements (list subject):

MORE EGGS IN 150 DAY TEST

GROW OUT YOUR PULLETS on RED HAT GROWING MASH WITH C-87

EXTRA EGGS pay feed costs ... give you handsome profit besides

In a recent test at a leading agricultural school, pullets fed out on a good commercial growing mash laid 78% more eggs than those turned out to shift for themselves.

And in another test, forty pullets grown out on MOTHER'S BEST Red Hat Growing Mash with C-87 laid 543 more eggs than an equal number fed out on a good commercial growing mash similar to that used in the first test. Convincing proof that it pays to grow out your birds on MOTHER'S BEST Growing Mash.

So why take chances? Make sure your pullets are fully matured to withstand heavy continuous laying. Put them on MOTHER'S BEST Growing Mash at 6 weeks of age. Keep 'em on it until they go into the laying house.

The extra eggs will more than pay your feed costs. Give you a handsome profit besides.

SEE YOUR RED HAT DEALER FOR A SUPPLY TODAY!
