The Grand Champion of the Demopolis District Dairy Show is shown at right with the proud owner Thomas Dryden, FFA member of the Thomaston chapter. His cow won the championship in both the junior and open divisions of the show. Thomas owns an 8-cow dairy herd of Jerseys.

PICTURED at left is the special three-cent postage stamp issued in commemoration of the 25th Anniversary of the Future Farmers of America. 110 million of the FFA stamps have been printed for distribution nationally. The stamp is blue in color.
President Eisenhower to Address FFA Convention

President Dwight D. Eisenhower heads the list of distinguished speakers expected to participate in the 25th Anniversary national convention of Future Farmers of America at Kansas City, Missouri, October 12-15.

The President is scheduled to address the final convention session on Thursday night, October 15.

Registration for the convention is expected to total 10,000 or more Future Farmers from all sections of the United States, Hawaii, and Puerto Rico.

Business sessions, a “silver anniversary pageant,” special entertainment programs, the national FFA public speaking contest, and presentation of awards to hundreds of Future Farmers whose achievements have been outstanding, will round out a full three days’ program for the FFA delegates.

Postmaster General Arthur E. Summerfield, or one of his top assistants, will participate in the program during the morning of October 13 when the first presentation will be made of a special three-cent postage stamp commemorating the FFA’s 25th Anniversary.

Secretary of Agriculture Ezra Taft Benson has accepted an invitation to speak during the morning session of October 15. A third cabinet member, Mrs. Oveta Culp Hobby, Secretary of the Department of Health, Education, and Welfare, will address the convention during that afternoon.

Boys who arrive in Kansas City early will register during the morning of October 12, and embark on specially conducted tours to points of interest in the city during the afternoon. The first convention program will open that night when five Future Farmers will vie for honors in the national finals of the FFA public speaking contest.

Features Tuesday, October 13, in addition to the commemorative stamp presentation, will include presentation of awards in the national chapter contest and conferring of American Farmer Degrees. The evening session will feature the presentation of Star American Farmer awards, followed by special entertainment.

Pageant Wednesday Morning

The gigantic silver anniversary pageant will be featured Wednesday morning, and during that afternoon most of the boys will go on tours of the city while the official delegates work in committee sessions. Regional and national winners of Future Farmers of America Foundation awards in Farm Mechanics, Farm Electrification, Soil and Water Management, Farm Safety, and Dairy Farming will be presented Wednesday night, followed by another top-notch entertainment program.

Thursday’s program, in addition to the addresses by President Eisenhower, Secretary Benson and Secretary Hobby, will include, during the morning, a Buffalo Grass Dance staged by Indian members of the Browning, Montana, FFA chapter. Business matters to be covered during the final day include the election of new national officers.

Two popular features of recent FFA conventions, the national band and national chorus, will be active throughout the week. About 100 boys are expected to participate in each of the musical units. The band members, as usual, will remain in Kansas City to participate in the American Royal parade on October 17.

The 1953 convention marks the 26th national FFA meeting in Kansas City. The first one, held in November, 1928, was the FFA’s “constitutional” meeting when a few vocational agriculture students and their advisers met in the old Baltimore Hotel to approve a constitution and elect officers for a national Future Farmers of America organization.

The Future Farmer movement had started several years earlier when students of vocational agriculture in rural high schools throughout the nation started forming local “ag clubs,” and similar organizations with a wide variety of names. Teachers soon found that in addition to their recreational and social value, the boys’ organization could be used to stimulate the interest of the students in their studies and work, help them develop leadership, and promote citizenship.

Many State associations of vocational agriculture student organizations had been formed by 1928. The national meeting was simply the logical development of a movement that had begun many years earlier.

By 1937 FFA conventions had become so large that no hotel had facilities for handling the meetings. The conventions were moved to Kansas City’s big Municipal Auditorium, and they’ve been held there since that time. Six to seven thousand of the organization’s 365,369 members attend the conventions annually. A crowd of 10,000 is expected this year because of the Anniversary.

OCTOBER-NOVEMBER, 1953

Our FFA Purposes—A Challenge

1. To develop competent, aggressive, rural and agricultural leadership—Now what could be more important to you than preparing yourself for a successful future.

2. To create and nurture a love of country life—Many of you are at an age that country life may seem uninteresting. You may be faced with some hardships, therefore you should learn the better ways and appreciation for country living. After all, you will be our farmers of tomorrow.

3. To strengthen the confidence of farm boys and young men in themselves and their work—Everyone must have confidence in themselves and their work in order to achieve happiness and success. Sound FFA programs will strengthen the confidence of its members.

4. To create more interest in the intelligent choice of farm occupations—Selecting the right farming occupations is necessary to a young man’s success in farming. Everyone has his likes and dislikes. It is always important to select occupations one likes and also those that have a practical future.

5. To encourage members in the development of individual farming programs and establishment in farming—Our FFA Motto—Learning to Do, Doing to Learn, Earning to Live, Living to Serve. Our individual farming programs are the necessary devices to achieve this purpose, as referred to in our motto.

6. To encourage members to improve the farm home and its surroundings—When we study about and see good homes and beautiful surroundings, it is just natural that we want to do something about it.

7. To participate in worthy undertakings for the improvement of agriculture—We should always be encouraged to help improve anything relating to our own profession. Worthwhile undertakings in this connection should be provided for all FFA members.

8. To develop character, train for useful citizenship, and foster patriotism—FFA provides a wonderful opportunity to develop the thinking and character of all members. It is just a natural. In class, in FFA meetings, on fishing and other trips, this should be one outstanding objective.

9. To participate in cooperative effort—Again, we learn by doing. We should therefore have practical training and experience in cooperative effort.

10. To encourage and practice thrift—Thrift is one secret to success. To earn is one thing, but to be thrifty with our savings and investments is another. Training and experience in both are necessary to insure success and happiness.

11. To encourage improvement in scholarship—A good Vo-Ag teacher is usually the boy’s most effective teacher. His encouragement can go a long way toward getting him to study and make good grades in school. His personal interest in the individual boys will encourage them to study and work hard. The cooperative spirit of the chapter tends to encourage boys to make better scholars.

12. To provide for and encourage the development of organized rural recreational activities. The old saying is “All work and no play, makes Jack a dull boy.” For this reason a well-planned recreational program is necessary for the development of FFA members, both mentally and physically.

Now don’t you think the 12 points listed above are extremely important in the development of the “Successful Farmers of Tomorrow, which are the Future Farmers of Today”?
State Forestry Camp Most Outstanding Yet

A total of 101 FFA members representing 65 counties in Alabama attended the Eighth Annual Forestry Camp at Camp Grist in the Valley Creek State Park north of Selma, August 2-8.

First held in 1946, the camp is held every year for those Future Farmers who have shown or demonstrated an interest in forestry by including forestry projects in their supervised farming program in vocational agriculture. Its purpose is to encourage better care and improved practices on the woodlands of Alabama farms.

Topics the farm youths studied while at the Forestry Camp include tree identification, tree planting, forest fire prevention and control, first aid and farm safety, harvesting, utilization and marketing forest products, and other related subjects. The FFA boys will also enjoy many contests and athletic events.

Members of the teaching staff at the Forestry Camp are: Dawson Jennings, Area Forester, Southern Pulpwood Conservation Association; D. Virgil Willett, Conservation Forester, Gulf States Paper Corporation; J. G. Burns, Forester, Hollingsworth and Whitney Paper Company; Boyd Arnold, Conservation Forester, Southern Kraft Division, International Paper Company; Ken Rolston, Forester, Coosa River Newsprint Company; J. W. Beall, Project Forester, Alabama Department of Conservation; John M. McCullough, Acting Chief, Forest Management, Alabama Department of Conservation; Grady G. Cleveland, Assistant State Forester (retired), Centreville; L. L. Smith, District Forester, Alabama Department of Conservation; Knox Davis, Assistant District Forester, Alabama Department of Conservation; and Arnold Leak, District Forester, Alabama Department of Conservation.

During the week these husky FFA boys who hailed from all over the state, learned something about almost every phase of timber management. They learned how to cruise timber, how to fight forest fires, how to identify trees, and how to plant.

Fire Fighting Class

Sitting in groups under the trees, they listened as a veteran forest fire fighter described how fire lines were used to check fires and told them that burned timber means "money out of everybody's pocket."

They learned about snakes, too, and curiously inquired about "stinger" snakes they had heard about. Then they took turns in swathing each other in bandages until some of the boys looked like Egyptian mummies.
Instructors said the group was one of the most attentive they have seen at the annual camp.

Time for Sports

The camp wasn't all study, though. A good part of the day was spent at volleyball, softball, tennis, basketball, swimming, ping-pong and other sports.

Each of the cabins into which the youngsters were divided provided a volleyball, softball and basketball team, and the lake below the camp was practically empty of swimmers as the teams fought it out for the camp championships.

'Chief Forester' Named

Friday climaxed the camp activities. Claude Nall, of Red Level, was named "Chief Forester."

With this honor went a $60 wrist watch. Next place, a rod and reel prize, was taken by Bennie Grimes of Enterprise, the "Assistant Chief Forester."

Champion wood sawer was Billy Mendenhall, Thomaston. He was awarded a bow saw. Leon Peoples, Moundville, received an ax for placing first in the wood chopping contest.

Other Winners

Other contest winners were: Hog calling, George Johnson, Pell City; archery, Tommy Murphy, McAdory; ping pong, Deward Averett; box hockey, Rodney Rudd, Florala; water jousting, Harry Fuller, Livingston and Joe Leopard, East Limestone; dead man's float, Mickey Davis, Clanton; horseshoes, Raleigh Loper, Chatom and Tommy Jenkins, Moulton; and swimming, Ted Hallmark.

Leon Peoples, Moundville, qualified for sharpshooter in the National Rifle Association of America.

Other contests in which all boys in each cabin participated were: basketball, softball, volley ball, and tug of war.

J. M. Stauffer, State Forester, said the camp was administered by the Alabama Division of Forestry and that it is sponsored by the Southern Pulwood Conservation Association and its member mills in Alabama. They are: Gulf States Paper Corp., Tuscaloosa; Hollingsworth Whitney Co., Mobile; Southern Kraft Division of International Paper Co., Mobile; and Coosa River Newsprint Co., Coosa Pines.

Vo-Ag Teachers Attend

Nine teachers of vocational agriculture in the state also attended the camp. They were: J. D. Duke, Smith Station; M. C. Oliver, Cotaco; J. H. Lockhart, Danville; J. L. Parish, Geneva; J. D. Granger, Red Level; Ernest Dyess, Suttle; E. C. Henson, Citronelle; E. F. Winter, Lyefflion; and C. W. Killough, Linden.

WETUMPKA CHAP TERN — Silver Emblem Chapter Contest; 4th place Home Improvement.
WINFIELD CHAP TERN — 2nd place String Band; 3rd place Radio Program.

Our Future Farmers

Many of our future farmers will come from the 12,261 F.F.A. boys who are studying vocational agriculture in Alabama.

F.F.A. members will participate in district dairy shows held at Decatur, Fayette, Dadeville, Gadsden, Bessemer, Demopolis, Mobile, and Montgomery this month.
DeKalb County Chapters Praised by Local Editor

by J. A. DOWNER
(Reprint from DeKalb Times, June 10, 1953)

Before us is the June-July issue of The Alabama Future Farmer. This publication is the official state organ of The Future Farmers of America, FFA for short. An interesting feature of this particular issue is a list of FFA Chapters in Alabama, ranked according to membership.

A DeKalb County FFA Chapter, Geraldine, is the number one group in all Alabama, from a membership standpoint. Geraldine has 117 members, 11 ahead of the second place chapter, which is Heflin with 106 members.

We scanned the list of chapters, arranged according to membership rank, to see how other DeKalb County chapters rank. Tied for 22nd place are the Crossville and Ider chapters with 71 members each. In 73rd place is Valley Head with 56 members — and there are 252 chapters in the state. Sylvania ranks 184th with 37 members, and tied for 195th place are Fort Payne (DeKalb High) and Fyffe with 35 members each.

The total FFA membership in Alabama is 12,261. Of this total DeKalb County has 474 members. Average membership for the state's 67 counties is 183. We haven't the time to check to see whether our county is the top county in FFA membership, but it would be safe to say that we're near the top, if not actually there.

We're not as familiar as we should be with the aims and objects of the FFA movement. But we judge that it is made up of young fellows who are farm-reared and who plan to make a career of farming. When we reflect upon our dependence on the soil and those who till it, it is hard to imagine an organization more important to our future well being than the Future Farmers of America. So, blessings on you fellows — you couldn't have a worthier ambition than to stay on the land and work it.

—— FFA ——

Letter to Editor

Dear Mr. Faulkner:

I am enclosing a check for $17.00 for 68 1-year subscriptions to the National Future Farmer Magazine. We have the magazine going into the home of every FFA member.

Yours truly,

J. J. Lewis, Adviser
Blountsville FFA

ATLANTA, GEORGIA

OCTOBER-NOVEMBER, 1953
FAA Roundup...

CHEROKEE COUNTY

Cherokee County FAA organization held a meeting recently at the Centre vocational agriculture department building with all five of the county FAA chapters represented.

Heading the order of business to come before the group was the electing of officers for the coming year. The following county officers were elected: Connis Ross Parris, president, from the Cedar Bluff chapter; Charles Young, vice president, Centre; Sonny Lewis, secretary, Gaylesville; J. W. Bailey, treasurer, Sand Rock; Edward Arrington, reporter, Spring Garden; and A. C. Teague, vocational agriculture teacher at Cedar Bluff High School, county adviser.

The county group also set up a program of work and appointed the following committees: A program of work committee, athletic committee, soil conservation committee, field day committee, and contest committee.

Advisers for the various committees were the following vocational agriculture teachers: D. P. Whitten, Centre, field day; S. E. Pate, Sand Rock, program of work; Jack Elrod, Gaylesville, contest; J. C. Hollis, Spring Garden, conservation; and A. C. Teague, Cedar Bluff, athletic committee.

SULLIGENT

With the new enrollment of 55 students in vocational agriculture, it is expected that FAA will have a good year at Sulligent High School, according to Bobby Harris, FAA Reporter. The FAA membership is climbing each year and the goal of the chapter is to have more FAA members than Vo-Ag students, states Bobby.

The watermelon cutting which is always held the first week of school by the FAA chapter at Sulligent was held the night of September 3, under the lights of the vocational building. The FHA girls were on hand to enjoy the first get-together of FAA and FHA this year.

ONEONTA

The Oneonta FAA chapter has erected three road signs urging the public to help prevent forest fires and keep Blount County green. These signs were placed on highways leading to Oneonta.

Improving and protecting forest lands in the Oneonta area is one of the goals set by the chapter, according to Thomas Mann, FAA Adviser. He states that during the past year the Future Farmers have set out 7,000 pine seedlings, constructed fire lanes around 20 acres of woodland, killed undesirable hardwood trees on 20 acres and sold 97 car tags bearing the inscription: "Prevent Forest Fires - Keep Alabama Green."

COLD SPRINGS

The gate was held wide open at the Denny Purdue farm recently to receive a choice bred gilt given to the Cold Springs FAA chapter by the Sears Roebuck Foundation for the beginning link of a purebred pig chain in the Cold Springs school area.

Donald, Mr. Purdue’s oldest son, is an active Future Farmer and is taking care of the foundation gilt for the chapter.

The boys in the Cold Springs chapter are expecting great things of this newcomer in the community through the improvement of the quality of swine being produced in the community during the years ahead.

After the gilt farrows in September and weans her pigs, the female pigs will be given to deserving chapter members who are interested in swine production. Every boy who receives a gilt pig from the chapter will return one choice gilt pig to the chapter to be given to another FAA member or disposed of as the chapter considers best.

SAND ROCK

After making an educational and recreational tour to Miami, Florida in July, Future Farmers at Sand Rock are now plunging into their program of work for this school year, states Irby Puckett, chapter reporter.

Among the activities already held are an officers’ training school, regular officer meeting, elected school store managers and appointed committees for socials, finance, and to plan the chapter’s program of work.

Assisting the boys with the above activities is S. E. Pate, FAA Adviser at Sand Rock High School.

TOWN CREEK

New vigor was added to the Town Creek FAA Chapter recently when 22 Green Hands were added to the chapter membership. These boys are taking their first year of vocational agriculture and will contribute much to the activities of Town Creek Future Farmers during their coming years.

FFA Reporter, Henry I. Smith, states that the chapter is adding to the treasury by selling concessions at ball games.

Other activities already being planned for this year, according to John L. Yates, FAA Adviser, are: the chapter program of work for this year, Father-Son banquet, a pig chain, and several members are planning new pasture projects.
Regional FFA Speaking Held in Alabama

Alabama was host to the Southern Region FFA public speaking contest September 8th. Four winning FFA speakers representing 12 Southern states met at the Autauga County High School in Prattville and competed for the honor of representing the Southern Region in the national contest which will be held in Kansas City, Missouri, during the National FFA Convention.

Presiding at the event was Cameron Lyle, Eclectic, vice-president of Alabama FFA Association. Zane Turner, principal, Autauga High School, officially welcomed the guests to Prattville. J. C. Cannon, state supervisor of vocational agriculture in Alabama, introduced the guests.

Judges for the contest were: Dr. J. C. Blair, Chairman, Director of Negro Education, State Department of Education, Montgomery; E. H. Wilson, Director of Agriculture, Alabama State Chamber of Commerce, Montgomery; and J. F. Ingram, State Supervisor, Vocational Industrial Education, State Department of Education, Montgomery.

Timekeeper was B. P. Dilworth, and consultant was T. L. Faulkner, Auburn.

The Prattville FFA Chapter was in charge of arrangements. Their FFA Adviser is H. Y. Grooms.

FFA Forestry Contest

State Winner. . . . JOHN WILLIAM POE Suttle
Project Accomplishments: 
- Planted 11,000 seedlings
- Pruned 6 acres
- Thinned 9 acres
- Selectively cut 5 acres
- Products harvested:
  - 3,800 bd. ft. sawlogs
  - 2 cords pulpwood
  - 200 fence posts
  - 9 cords fuelwood
- Constructed 2 miles of fire breaks

Vo-Ag teacher. . . . E. L. DYESS
Second Place. . . . . DAVID WILSON Grove Hill
Third Place. . . . . CHARLES ABSTON Aliceville
Fourth Place. . . . . JIMMY YOUNG Fayette

SYMBOLS OF BETTER LIVING

FFA members are living symbols of better life. They are symbols of rural leadership. They have a love for country life and they are a promise for the future.

FUTURE FARMERS PAVE THE WAY

FFA members are paving the way for a richer and fuller life among the farm people in Alabama. They are paving the way by adjusting their farming programs and way of life to the changing times.
Past Year's State Officers Continue Education

Alabama Polytechnic Institute will be getting its share of last year's State FFA Officers when freshmen enroll at the Village of the Plains this fall. At present three of last year's top FFA'ers are slated to begin their college work at API, all studying some phase of agriculture. Another will get some work at a Junior college while the fifth is somewhat in doubt at the present time.

Last year's president, Winfred Davis, Milltown, will study agricultural engineering. Millard Latham, Palmetto, former vice-president, will also take some phase of agriculture at Auburn and Roy Sims, former reporter will take up agricultural science at the state agricultural college.

Charles Wall, ex-treasurer from Hayden, plans to do some work at Snead Junior College, Boaz, before moving into his field of specialization.

The plans of Bob Molette, Orrville, last year's secretary, are not known. These farm youths are emphasizing their belief "in the future of farming" by advanced study in the field of agriculture and will no doubt find their places some day among our farm leaders.

Tractor Derby Held At Reform

The FFA Tractor Derby held at Reform was witnessed by about 300 spectators who saw that a great deal of skill is required to properly handle a tractor. Nineteen farm youths were trying for top tractor driving honors. Each had to drive a tractor pulling a two-wheel trailer down a difficult course and then back into a simulated garage with about three inches of clearance on each side.

L. J. Howell, vocational agriculture teacher at Reform, was general chairman of the day's activities. The Tractor Derby was sponsored by the Standard Oil Company with their agricultural representative E. L. Riddick on hand to hold the contest.

Champion tractor driver named at the derby was Billy Don Robinson, from the Millport FFA Chapter. Second place honors went to Don Howell, Hamilton and third place winner was Jimmy Seay, Millport. The first place winner was awarded a cup with the other winners receiving a plaque.

Before the derby for the FFA members, the boys got quite a laugh at seeing their FFA advisers compete with their tractor driving skill.

American Turpentine Farmers Association

General Offices — Valdosta, Georgia
"What kind of stone is that in Hazel's ring?"
"Must be a rolling stone. I had it last year and Geraldine had it last month."

Grandpa Simpkins was sort of absent-minded, so his wife wasn't too surprised when he came in from a walk to the post-office and announced that he guessed he'd lost his umbrella. "When did you first lose it?" Grandma wanted to know.
"Just now," replied Grandpa. "It stopped raining and I reached up to put it down and it wasn't there."

The tongue, being in a wet place, is likely to slip when going fast.

A tourist in Kentucky called to an old resident: "Hey, uncle, how far is it to Lexington?"
"I dunno, mister, it used to be about 25 miles, but the way things has gone up around here it may be near 40 by now."

A Scotchman upon entering a harness shop asked for a single spur.
"What use is one spur?" asked the clerk.
"Well," replied Sandy, "If I can get one side of the horse to go, the other side will have to come with it."

McPherson: "I thought your son was to be an ear specialist — now he tells me he's studying dentistry, what changed his mind?"
Sandy: "I dunno, Mack, all I ever said was, 'people have 32 teeth and only 2 ears'."

Sailor's Wife: "Remember when we were first married — you used to say I had a shape like a beautiful ship?"
Sailor: "Yeah, but your cargo has shifted."

---------

SING WHILE YOU DRIVE

At 45 miles per hour:
Highways Are Happy Ways

At 55 miles per hour:
I'm a Stranger Here, Heaven Is My Home

At 65 miles per hour:
Nearer My God to Thee

At 75 miles per hour:
When the Roll is Called Up Yonder, I'll Be There

At 80 miles per hour:
Lord, I'm Coming Home.

PICTURED ABOVE is the Champion County exhibit at the Fayette District show. They were all members from the Winfield chapter. From left to right they are Joe Byars, Lex Webster, Hubert Hocutt, James Byars, Dale Harbin and W. B. Webster. Their local adviser is W. D. Hunt.

---

These are signs of life—and the life they save may be your own. Despite all efforts toward safety through the years, traffic deaths still total 38,000 a year. A terrible toll, one that every person who drives can help reduce.

It's no accident that telephone employees who operate cars and trucks are careful drivers. They're constantly trained in safety. The Bell System's safety creed expresses it this way:

"No job is so important and no service is so urgent that we cannot take time to perform our work safely."

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY

A SAFE PLACE TO WORK...A GOOD PLACE TO WORK

OCTOBER-NOVEMBER, 1953
AKRON—three members and adviser attend­ed State Convention; planned sus­pending and schedule for officer training class; ordered new FFA Handbooks, membership badges, and welcome signs for highway; held officers train­ing meeting.

ALBERTVILLE—held two chapter meetings; elected officers; studying Dairy Judging; cleaned and repainted seven farm tractor cabinets; purchased one Anseo Viking and two Wall charts for class­room instruction on Community Picnic area; held officers training meeting; organized quartet; ordered 35 FFA Manuals.

ARLEY—started membership drive; planning bus trip to State Fair; have opened up post­age contract; planning booth for Chattahoochie Exposi­tion; planning program for next meeting.

BRIDGEPORT—planned program for next meet­ing; ordered official FFA manu­als, secretary and treasurer book, and mem­bership procedure books; had an entry in the Rebel Farmer Derby.

Give 'em Light
for MORE EGGS
in Fall and Winter

Experience has proven that hens lay more eggs if hen houses are lighted during the short days of fall, winter and spring.

If you want to maintain good egg production during the short-day seasons, ask your vocational agriculture teacher or a power company rural service engineer to tell you how to provide a few extra hours of light for your hens.

Alabama Power Company
Helping Develop Alabama
HERE'S BIG NEWS FOR Hog RAISERS!

RED HAT HOG FEEDS
now bring you

HCR

to give you more lbs. of pork per DOLLAR of feed cost

WHAT IS H.C.R.?
and how does it help me get
Bigger Faster gains…Lower Feed Costs than with ordinary commercial Feeds?

HCR means HIGHER CONVERSION RATIO. That is, it takes less Mother's Best RED HAT HOG Feed to produce a pound of pork than it does with most other kinds.

There's a reason why RED HAT gives you such outstanding performance. These great pork-builders are precision blended. They contain ALL the proteins, minerals, vitamins and other nutrients PLUS anti-biotic growth boosters in just the RIGHT RATIOS to produce the most amount of pork for the least amount of feed.

As a result, RED HAT Hog Feeds give you bigger, faster gains and lower feeding costs than you have ever before expected.

Many farmers report it only takes 700 lbs. of feed or less to produce a 225 lb. pig for market at 6 to 7 months. 000 pounds of feed or more are usually required to raise that big a pig. So you see what a savings "HCR" means to you.

START USING RED HAT HOG FEEDS TODAY
With high hog prices, you'll want to get your pigs to market as quickly and economically as possible. Why take chances? Put your pigs on RED HAT Hog Feeds with HCR. Get those EXTRA pounds of pork and low feeding costs that mean bigger profits.

SEE YOUR RED HAT DEALER FOR A SUPPLY TODAY!

PIG AND SOW FEED
For bred sows and pigs up to 75 pounds

40% HOG SUPPLEMENT
To be used with your own home grown grain
