

Alabama FFA Association

July 1, 2009 to June 30, 2010

Overview

The Alabama FFA Association was founded in 1929 and was the 36th state association chartered by the National FFA Organization. The FFA is the state and national organization for students enrolled in agriscience education. The association has a long history of proven performance on the state and national levels. When FFA began in Alabama there were 113 vocational agriculture departments. Fifty-one of them applied for charters to begin FFA chapters. The earliest FFA contests in Alabama were the radio and essay: which began in 1935. The string band and public speaking contests began in 1936. The quartet contest began in 1945. It wasn't until 1950 that many of the traditional FFA contests, such as livestock, dairy, and agricultural (farm) mechanics began.

The Alabama FFA Association provides many opportunities for students to showcase what they have learned in the classroom and through their supervised agricultural experience (SAE) program. Agriscience education in Alabama is designed as a three-part model: FFA, SAE, and Classroom and Laboratory Instruction.

Classroom and laboratory instruction is the basis for everything that is done in agriscience education. The agriscience education mission is to prepare

2009-2010 State FFA Officers: (l-r) Joey Stabler, State Sentinel from Daphne; Kacey Colquitt, State Treasurer from Marbury; Mary Helen Jones, State Vice President from Wetumpka; Patrick Howard, State Reporter from McAdory; Wiley Bailey, State Secretary from Sand Rock; and Hunter Garnett, State President from Danville.

students for successful careers and a lifetime of informed choices in the global agriculture, food, fiber, and natural resources systems.

A student's SAE project is an extension of the classroom experience. The student has an opportunity to learn through hands-on applications outside of the regularly scheduled class time.

The FFA mission is to make a positive difference in the lives of students by developing their potential for premier leadership, personal growth, and career success through agriscience education.

Officers

The Alabama FFA selects its best to represent the organization each year. Six state officers serve the organization from one state convention to the next. The state officers serve on the Executive Committee of the Alabama FFA Association and conduct the business of the organization. The state officers also visit chapters and attempt to inspire chapters to be in a perpetual state of improvement.

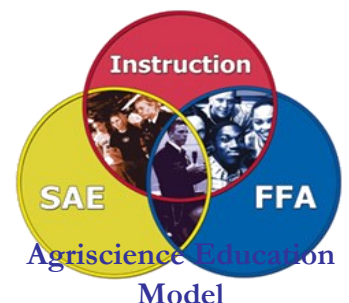

District Organization

FFA in Alabama is divided into three districts: North, Central, and South (see page 2). District FFA Eliminations are conducted each spring to reduce the number of teams competing in various Career Development Events

(CDEs) at the state level. The districts also select officer teams each year through an application and interview process. These officers also conduct chapter visits, give speeches, and conduct workshops for chapters.

FFA Chapters

The key to the success of FFA is local chapter involvement. Agriscience programs at local public schools have a FFA advisor that is responsible for coordinating the activities of the local FFA chapter and informing the member of opportunities available to them through the organization. Local chapters develop a program of activities each year that serves as a road map for the chapter's activities. Chapters across the state conduct various community service projects, chapter leadership development workshops, or student development activities.

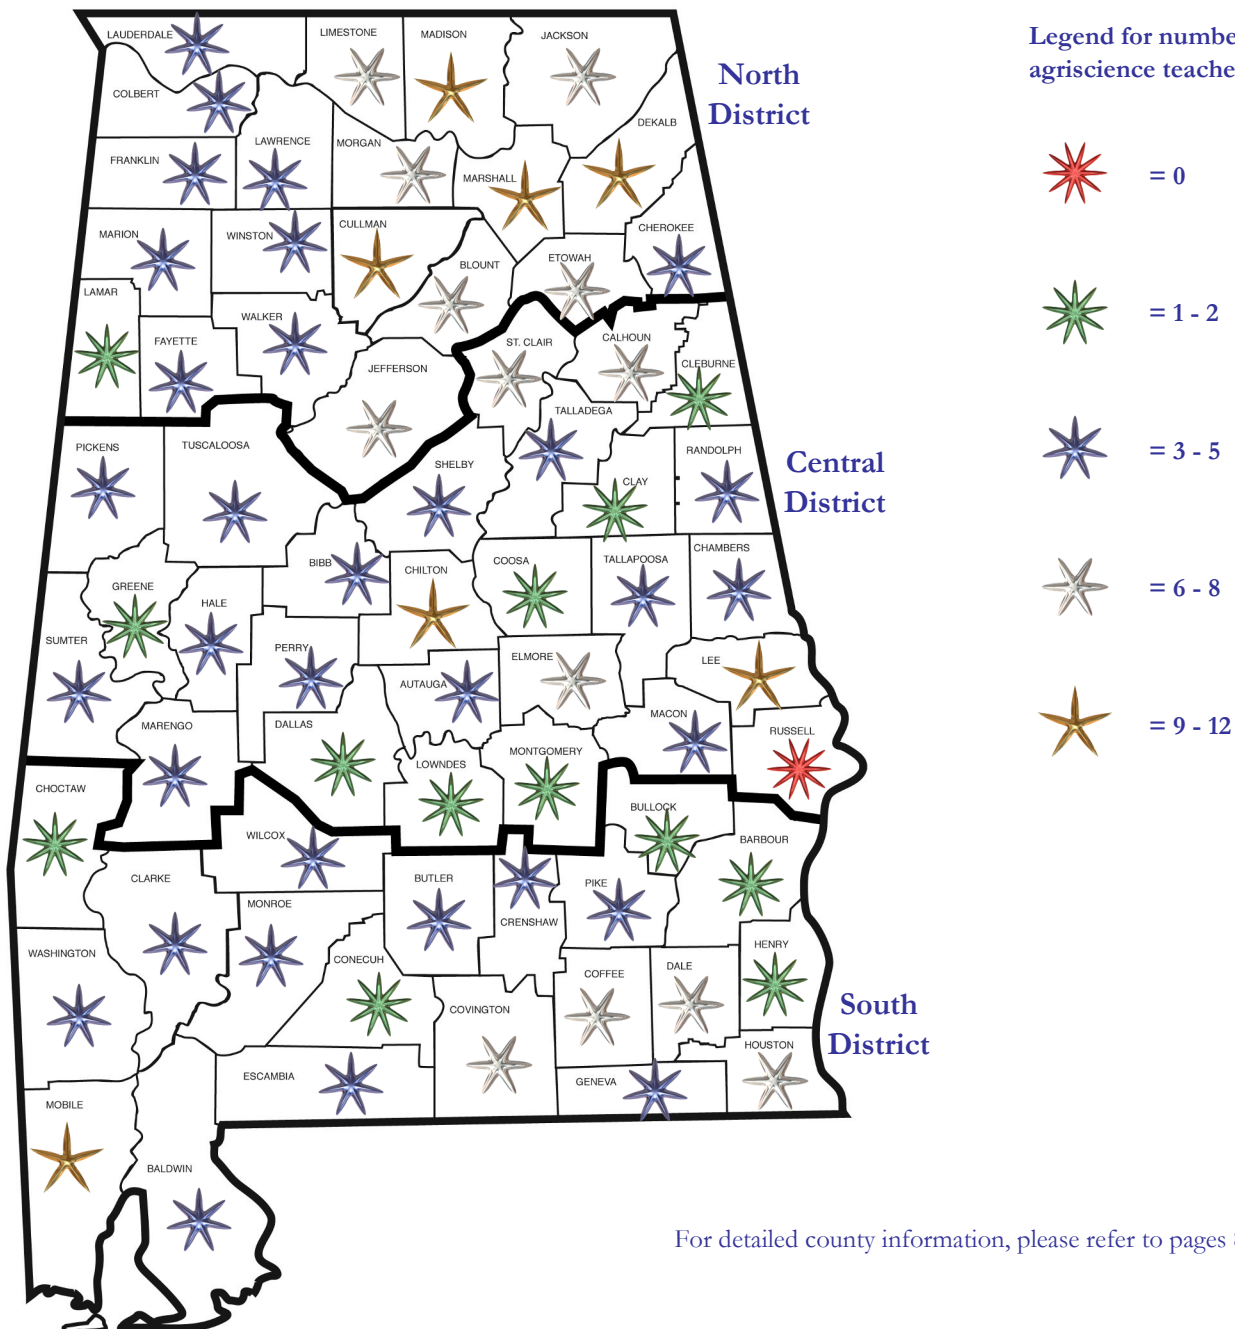

FFA District Organization

FFA districts in Alabama date back to 1934, when several chapters organized themselves into three districts, simply called districts 1, 2, and 3. Although membership in districts was voluntary, most chapters chose to affiliate themselves with a district to take advantage of the member opportunities available at that level. By 1936, Alabama had 22 districts that included 114 of the state's 138 FFA chapters. Most of these districts were named for a nearby city, although a few were named for a county or geographic location. Some of these districts were Andalusia, DeKalb County, Gadsden, East Alabama, Montgomery, and Muscle Shoals.

The number and size of districts have varied a great deal over the years, as districts often were reorganized every few years based upon membership trends and the number of state staff members. In the 1950s and early 1960s, Alabama was divided into the Northeast, Northwest, Central, Southeast, and Southwest districts. In the mid 1960s, the state was reorganized into the North, North Central, South, and South Central districts. Several years later, Alabama had six districts: North, Northeast, Southeast, Southwest, East Central, and West Central. The Southwest Central and Southeast Central districts were organized in the mid 1970s, bringing the total

number of districts to eight. In 1991, Alabama was reorganized into four districts, North, Central, Southeast, and Southwest. The Southeast and Southwest districts were consolidated into the South district in 2000. Today, the district organization continues to be a vital component of the Alabama FFA, as it provides opportunities for leadership and friendly competition among chapters. The image below divides the state into the current district organization and references the range for the number of agriscience teachers in each county.

Agriscience Teachers By County:

For detailed county information, please refer to pages 8-13.

FFA Membership

FFA is an integral part of an agriscience education program in Alabama. To join FFA, students must first be enrolled in an agriscience education class at a local school. Membership dues are paid each year with \$7 going to the National FFA, \$3 to the State Association, and \$2 to the District.

One of the benefits of membership is the *FFA New Horizons* magazine, which is delivered to members every quarter for a total of four issues each year. The magazine includes highlights of chapter activities across the nation, articles of famous athletes, career spotlights, and important FFA news.

FFA offers so many opportunities for recognition at the state, local, and national levels, members can hardly avoid being a winner! In addition to the satisfaction of members knowing their stuff and doing their best, they could walk away with money for school, cash prizes, and exciting trips, not to mention plaques, ribbons, trophies, and chapter banners.

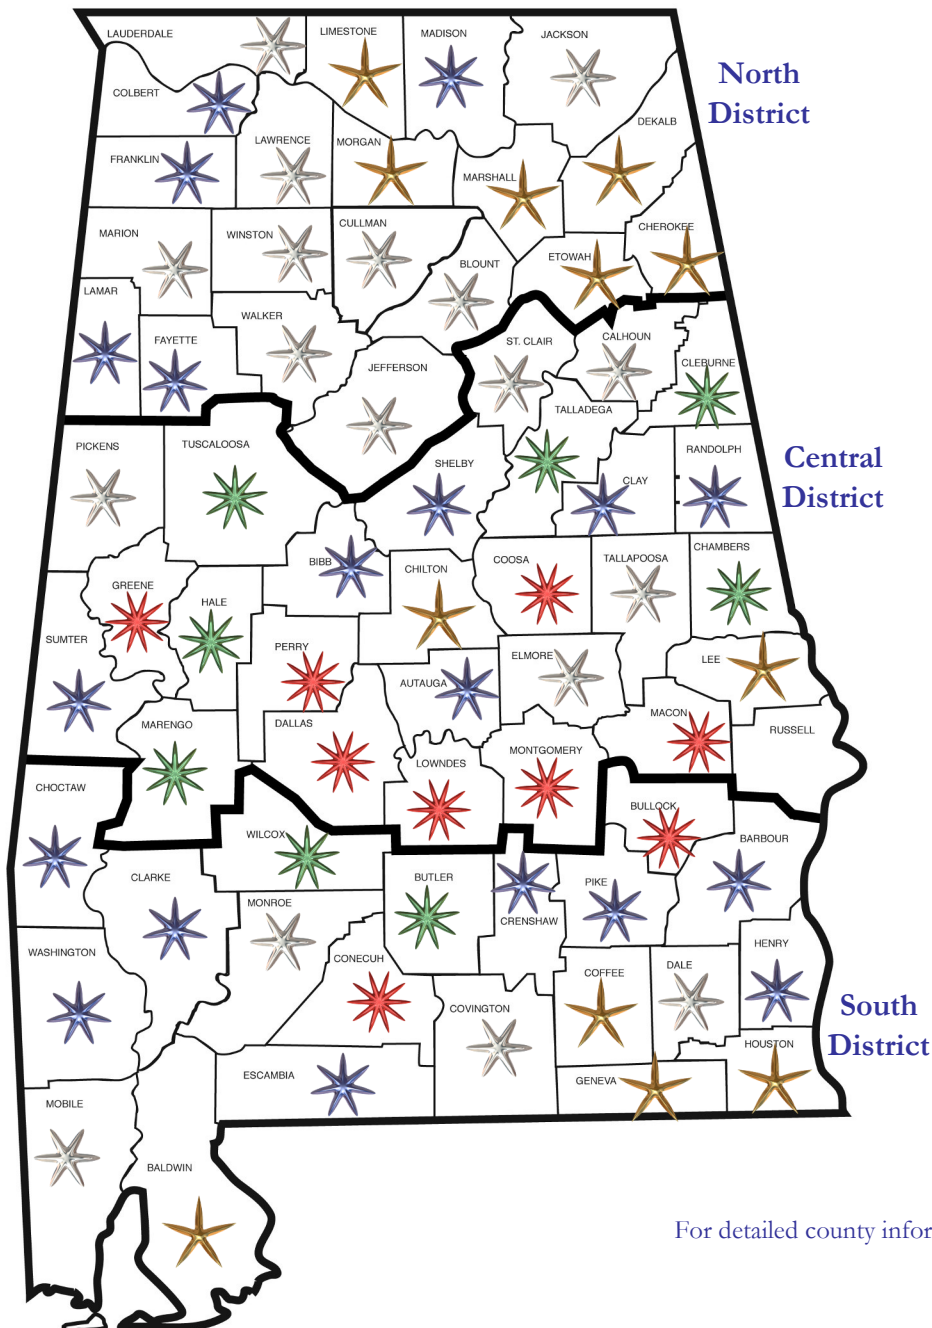

Each year members have the opportunity to participate in county competition, District Eliminations, and the State FFA Convention. The National FFA Convention is held for the

highest level of recognition for our students, teachers, and state leaders.

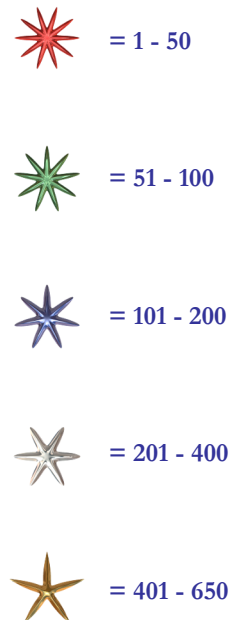

The National FFA Organization awards more than \$1 million in scholarships to more than 800 FFA members each year. And that's just the beginning. Many local and state businesses also offer FFA scholarships, and FFA experience and skills give members an edge over the competition for scholarships from other groups and schools.

The image below indicates the range for the number of FFA members in each county.

FFA Members By County:

Legend for number of FFA members per county:

For detailed county information, please refer to pages 8-13.

FFA Contests and Awards

The purpose of the Alabama FFA Association's Contests and Awards Program is to vitalize and enrich the instructional program of Agriscience Education. Through participation in an effective Contests and Awards Program, FFA members are recognized for outstanding accomplishment and motivated to achieve their greatest potential.

Schools with multiple teachers and large enrollment in Agriscience Education may establish separate chapters. Each chapter shall be organized and operated in accordance with all the provisions of the national, state, and

local constitutions. Each chartered chapter must submit its own list of FFA members enrolled in its chapter, along with the designated advisor. The State Office should be notified when transfers are made from one chapter to another. FFA members are only eligible to participate in the activities of one chartered FFA chapter.

In order to remain in good standing with the State Association, chapter dues must be submitted by March 1 each year. Charters of chapters not submitting dues and fees by this date will be withdrawn by the delegate body at the State FFA Convention.

FFA members are invited to "get into the mainstream of FFA activities" and participate actively in the FFA Contests and Awards Program. Members are encouraged to look at the list of contests and awards, select the award areas that interest them, then put forth their best effort to win!

For more information regarding the FFA contests and awards, go to the Alabama FFA Web site at <http://www.alabamaffa.org> and look under forms and applications for the Alabama FFA Contests and Awards Booklet.

FFA Association Partners

We are proud of our affiliation with the sponsors of FFA in Alabama. Some are new and some have been faithful sponsors for many years, but we take every opportunity to acknowledge and thank each and every one of them for the time and money they have invested in the Alabama FFA Association.

Our fine partners consider their efforts to be a good investment in the future. How good an investment it proves to be will depend upon the

extent to which all Alabama FFA members, advisors, and chapters participate. Let's prove to our sponsors that they made a wise decision when they chose to support FFA in Alabama.

There is a composite list of sponsors on the adjacent page with the areas that they sponsor. To view a complete list of our partners, please visit our Web site at <http://www.alabamaffa.org> and view the Partners page.

Agricultural Proficiency Awards

The purpose of these awards is to stimulate interest in the instructional program and agricultural occupations and reward FFA members for exceptional accomplishments in progressing toward specific occupational objectives through their Supervised Agricultural Experience (SAE) program.

Agricultural Proficiency Awards are available to all FFA members enrolled in high school Agriscience Education and members who have been out of high school not more than one year and have completed at least three full years of Agriscience Education or all

the Agriscience Education offered in their school. Applications for these awards may include reports of activities and records completed up to January 1 of the year the application is submitted.

A member may be granted only one first place Agricultural Proficiency Award on the state level per year and may receive the same kind of state award only once. All of the Agricultural Proficiency Awards are individual awards. Chartered chapters are eligible to submit only one application in each of the proficiency awards.

The awards in these areas are sponsored jointly by the state-level sponsors and the National FFA Foundation sponsors. State-level awards are only presented if there are applicants for the sponsored award area. The National FFA Foundation sponsors pay \$200 for each 1st place proficiency award presented at the state level.

There is a detailed listing of the proficiency award area on page 6 of this report.

Alabama FFA Sponsor Recognition

Sponsor	Amount	Area	Total Sponsorship

Career Development Events

The primary goal of the team career development events and awards is to develop individual responsibilities, foster teamwork, and promote communication while recognizing the value of ethical competition and individual achievement.

Team career development events and awards should be an outgrowth of instruction; but, recognize the value and contributions of the experiences and aspirations of individual members.

FFA career development events and awards should reflect instruction that currently takes place in the Agriscience Education program, including classroom instruction, laboratory instruction, individual instruction and/or supervised agricultural experience.

Alabama FFA Leadership Development

The Alabama FFA's philosophy is that great leaders are not just born with an innate ability to lead, they are developed. The organization has designed a program for individuals to promote the development of those skills deemed necessary to be an effective leader.

Chapters across the state begin the development of these skills with their daily operation. A select few chapter members have the opportunity to serve as state officers. The six state officers attend two leadership conferences to prepare them for service. Blast Off is an introductory workshop that delves into the skills necessary to perform the duties of a state officer. The National Leadership Conference for State Officers (NLCSO) prepares the state officers to train others in skills they have acquired.

After the NLCSO, the state officers are busy preparing for the District Officers' Leadership

Conference. This conference assists the district officers in preparing for the next level of leadership training, the Chapter Officer Leadership Workshops (COLWs). The COLWs are held around the state in the three districts to allow the chapter officer teams to attend and build the skills they need in order to run an effective chapter in their communities.

After the summer workshops are completed, the state officers are busy visiting chapters and making appearances across the state during the year. They also are eligible to attend the national convention as delegates. This honor affords even more opportunities for them to gain team building and relationship building skills that are so essential.

A few of Alabama FFA's best have even gone on to attain the ultimate leadership position in our organization, a national office. This privilege requires a year of service to the organiza-

tion. The national officers must put a hold on college or work and dedicate themselves to the office. In their year of service, while traveling over 100,000 miles, they will visit Japan and about 40 of the 50 states.

The FFA has many opportunities for students to excel other than officer positions, supervised agricultural experiences, and competitions. The members can get involved in their communities through their chapters by working with blood drives, habitat for humanity, community cleanup, community landscaping projects, and the list goes on. Effective FFA programs can have a huge impact on their community in a variety of ways.
