SUMMARY SHEET

When all participants have finished, the judges will retire and make their placings (1, 2, 3, etc.) without any discussion. The judges' rankings of each participant then shall be added, and the winner will be the participant whose total ranking (score) is the lowest. This is the low point score method of selection.

The person in charge will assist by recording the final placings of each judge on the Summary Sheet to determine the winners. In case of a tie, ties will be broken based on the greatest number of low ranks. Participants' low rankings will be counted and the participant with the greatest number of low rankings will be declared the winner. If a tie still exists, then the person in charge of the event will rank the participant's response to questions. The participant with the greatest number of low ranks from the response to questions will be declared the winner. If a tie still exists, then the participant's raw scores will be totaled. The participant with the greatest total of raw points will be declared the winner.

The Summary Sheet should be checked and double-checked before the winners are announced. The decision announced is final! The individual score sheets should be destroyed immediately by the judges; no one else will be allowed to see the score sheets.
