Phase B: TEAM QUESTIONS: Each team will be asked five questions separately. Answers are to be given by the team captain, but assistance from other team members is allowed. Correct responses are worth 10 points. A question may only be repeated once. Answers must be started within 20 seconds after question has been read and completed within an additional 60 seconds. Partial credit may be given at the discretion of the judge(s). **After one team has been questioned, the other team will enter the contest room and be asked the same five questions. Teams are competing for points not against other teams.**

Phase C: TOSS-UP ROUNDS: double elimination!
Each round consists of 20 toss-up questions and a possibility of 6 bonus questions.

- Each team must have a team captain.
- There will be NO multiple choice or True/False questions.
- Coaches for each team are the official scorekeepers. Coaches will notify question-reader when their team has qualified for a bonus question.

- Correct toss up answers are worth 15 points and bonus 20 points.
- Any team member may buzz in to answer a toss-up question. **However, there will be no discussion among teammates.**
- Team members will have 10 seconds from the last word of the question being read to buzz in and must start their answer within 5 seconds. If no team member buzzes in within the 10 seconds the moderator will read the answer and the question will be dropped and neither team will lose points.
- When a signal is pushed before the question has been completely read, the moderator will stop reading the question. After being acknowledged, by the moderator, the contestant may answer the question. If correct, the team will receive credit, (judges may not ask for an explanation). If the answer is incorrect, the question will be completely reread and members of the team will have an opportunity to answer it.
- If any team member buzzes in and provides no answer, **10 points** are deducted.
- If any team member buzzes in and provides an answer before he or she is recognized, by the moderator, then **10 points** will be deducted.
- If a member of one team buzzes in and provides an incorrect answer, no points will be deducted.
 - Members of the opposing team will be given a chance to answer, once recognized they can answer the question immediately with or without having the question reread.
- If by mistake the moderator gives the correct answer after the first team buzzes in and answers incorrectly, but before the opposing team has the opportunity to answer the question, a new question will be asked only to the second team to correct the mistake.
- NO partial credit is given in Phase C, except for bonus questions.
- Answers and interpretations of questions will be the sole responsibility and final recall of the judge(s). A team member will have the privilege to ask the judge(s) to verify an answer that he/she feels correct. If a coach challenges the judge(s) decision, the coach must call a “time out” (2 timeouts are allowed each team per round) immediately (before the next question has been started to be read). A decision made by the judge(s) after the answer will be final.
