Alabama State Department of Education, Dr. Eric G. Mackey, State Superintendent of Education

The Alabama State Board of Education and the Alabama State Department of Education do not discriminate on the basis of race, color, disability, sex, religion, national origin, or age in its programs, activities, or employment and provide equal access to the Boy Scouts and other designated youth groups. The following person is responsible for handling inquiries regarding the non-discrimination policies: Title IX Coordinator, Alabama State Department of Education, P.O. Box 302101, Montgomery, AL 36130-2101, telephone (334) 694-4746.

Revised September 2022
Floriculture CDE

FLORICULTURE CAREER DEVELOPMENT EVENT

PURPOSE

To give FFA members an opportunity to use the floriculture skills they have acquired in Agriscience Education courses and to make FFA members more fully aware of the horticultural enterprises in Alabama.

ELIGIBILITY AND REGULATIONS

- For specific eligibility of participants, refer to the Contests and Awards Booklet.
- Only district eliminations will be held prior to the state event.
- The top four winners in the North, Central and South Districts will compete in the state finals.
- CDE Scantrons will be used at District and State Eliminations.
- If a cell phone or smart watch is seen or heard in the possession of a competitor, that individual student will be disqualified from competition and receive a score of zero.
- Competitors must enter **their first and last name** as well as their **chapter number and name on the scorecard** or they will receive a score of zero. Judges will not attempt to figure out who the card belongs to.

DISCLAIMER

In the event that contests (CDE, LDE, TDE's) cannot be held in person, a virtual option may be conducted. Contest rules and guidelines are subject to change to meet the needs of a virtual experience

DRESS CODE

Participants must wear closed toed shoes/boots (no sandals, crocs or slides) and long pants (jeans with no holes/ khakis/dress pants) or skirts that cover the knees if not in official dress. Leggings, jogging pants, yoga, lycra, are not permitted. Shirts should be long enough to be tucked in (no crop tops or midriff showing) and not contain vulgar or suggestive material or language. Contest where oral reasons are given should respect the professionalism of the event, and dress aligning with the profession is preferred. Official FFA Dress is an allowable form of dress for all events.

Consequences for not being in dress code will be a 25 % deduction in scores

ALTERNATE POLICY

For district level events, if a chapter brings alternates there will be no more than two alternates allowed per team. Alternates will use a copy of the scan form (not an original) for those events scored via judgingcard.com. If more than four official scan forms are turned in for a chapter in one event, the highest score(s) for that team will be disqualified and deleted until the chapter only has four team members in the scoring system. Alternates must not be in groups with official team members.

For state level events, alternates are not allowed.

DISTRICT EVENT

1. The event will be held at regular district event eliminations.

2. A team will consist of a maximum of four members. The three highest scorers will make up the team score. (National FFA Contest requires 4 members with all scores counting)
3. The event will have three required phases.

DISTRICT EVENT PHASES Strictly enforce time limits. Do not extend time.

- **Identification of Plant Materials, and Equipment** (Artificial plants, pictures, and cuttings may be used as specimens) 25 Specimens | 6 points each | Time 45 seconds per specimen
 - **General Knowledge Examination** 50 questions | 4 points each | Time 30 minutes
 - **Problem Solving** 5 questions | 20 points each | Time 30 minutes
 - Participants will have 30 minutes to complete the written examination and 30 minutes to complete the Problem-Solving portion of the event. Participants will be given 45 seconds per specimen for the identification of plant materials. When the participant identifies the item, its name is then located on the identification list. The participant then records the number by that name on a scan form at the respective station. All this must be done within the 45 second per item time constraint.
6. The district event will be scored as follows.
 - Individual scores will be the sum of the scores on the three required phases of the event plus scores of other phases, if any.

<u>Phase</u>	<u>550 Possible Points per Member</u>
Written Examination.....	200 points
Identification of Plant Materials	150 points
Problem Solving	200 points

Individual and team tiebreakers: 1. Highest score(s) in the general knowledge exam; 2. Highest score(s) plant materials phase; 3. Highest score(s) problem solving.

STATE EVENT

1. The team will consist of a maximum of four members. The team’s total score will be based on the sum of the points earned by the three highest scoring participants on the team.
2. Participants entering the Floriculture Career Development Event may not enter the FFA Nursery and Landscape Career Development Event the same year.
3. The state event will have 5 phases.
 - Identification of Plant Materials (Live specimens, artificial plants, pictures, cuttings)
 - General Knowledge Examination
 - Problem-Solving/Decision-Making
 - Practicum (Job Interview, Floral Arrangement and Growing Procedures)
 - Three Rotational Practicums

4. Any communication between participants during the event will be sufficient cause to eliminate the team(s) involved from the event. If a cell phone is seen or heard in the possession of a competitor, that individual student will be disqualified from competition and receive a score of zero.
5. Any assistance given to a team member from any source during the event will be sufficient cause to eliminate the team from the event.
6. Under no circumstance will any participant be allowed to touch or handle plant material in the Identification of Plant Materials phase of the event. Any infraction of this policy will be sufficient cause to eliminate the team from the event.
7. References - A list of references for use as a guide in training teams is printed in this booklet, but the event will not be based exclusively on these references. See the Recommended References section.
8. Coaches/Advisors may not enter the event area until the event has been completed.
9. The state event will be held during the State FFA Convention.
10. Competitors must enter their name on the scorecard, or they will receive a score of zero. Judges will not attempt to figure out to whom the card belongs.

STATE EVENT PHASES Strictly enforce time limits. Do not extend time.

PHASE 1 -- IDENTIFICATION OF PLANT MATERIALS -- (200 points) 50 Specimens | 4 points each | Time 45 seconds per specimen

Fifty (50) specimens from the plant list will be displayed for participants to identify. Each specimen will be designated by a number (1-50). Participants will be given **45 seconds per specimen** for the identification of plant materials. When the participant identifies the item, its name is then located on the identification list. The participant then records the number by that name on a scan form at the respective station. All this must be done within the 45 second per item time constraint. Four (4) points will be given for each specimen that is correctly identified. No plants may be touched or handled in any way. Artificial plants, cuttings, pictures may be used as specimens.

PHASE 2 -- GENERAL KNOWLEDGE EXAMINATION -- (200 points) 50 questions | 4 points each | Time 30 minutes

Participants will answer 50 multiple choice questions that cover all areas of the floriculture industry. This phase of the event will test participants' knowledge and understanding of basic biological and scientific principles of producing and marketing flowers, plants and foliage. Each participant will be allowed 30 minutes to complete the exam. Each answer has a value of four points.

PHASE 3 -- PROBLEM-SOLVING/DECISION-MAKING -- (200 points) 10 questions | 20 Points each | Time 50 minutes

Each participant will solve 10 problems related to the various aspects of the floriculture industry. Each problem will describe the situation or create the problem and list four possible solutions to the problem. The participant must decide on the best possible solutions to the problem. All materials and information necessary to solve the problem will be available to the participant as he/she solves the problem. Each participant will be allowed 50 minutes to complete this phase of the event. Each correct solution has a value of 20 points.

Phase 4 – PRACTICUM-- (250 points) Time 50 minutes

Each participant will perform the three activities listed below. Score sheet(s) for each practicum is (are) included in this publication.

1. Floral Arrangement-- 100 points | Time 20 minutes

Make a \$55 floral arrangement. The event superintendent will announce the type of arrangement during the team orientation meeting. Using the materials provided, participants will be allowed 20 minutes to complete their arrangements and itemized bills. The event assistant at the beginning of the practicum will provide participants the RETAIL price of the flowers and foliage that they will use in their arrangements. The MARKUP will be built into the retail price. When the participant has determined the total arrangement cost, he or she has included the markup. Retail cost of flowers and foliage given to the participant will be determined after polling florists to determine their current retail prices on the flowers and foliage used in the event. Artificial flowers/plants may be used during this phase of the contest. Scoring criteria are presented on the floral arrangement practicum scorecard which will be recorded by a judge.

2. Interview for a Job-- 100 points | Time 5 minutes

Each participant will appear before an employer (judge) for the purpose of interviewing for a position available in the employer's business. Each team competing will receive a job description and application prior to the state event. Approximately five minutes will be allowed for each interview. It is strongly suggested that participants bring a resume to present to the judge. Participants will be expected to prepare, prior to the event, a resume of their experiences and background to present to the judge at the time of the interview.

3. Growing Procedures-- 50 points | Time 5- 10 minutes Dependent on activity

One of the following three events in growing procedures will be used each year. The event chosen will not be announced until the event. Each event will use the score card with assigned criteria for that event.

i. Potting of Young Plants (Plugs or Liners)

Participants will be asked to plant young plants in the pots provided. Each participant will be given a group of young plants from which to select their transplants from; an appropriate pot or pots; potting medium at the correct moisture level, ID stake and a marking pencil. **Ten minutes** will be allowed for completion of this practicum including the judging of the participant's performance in completing the practicum.

ii. Asexual Propagation of Plants

Each participant will be provided the parent plant materials and all other materials needed to propagate plants asexually. Using the available materials, participants will take five cuttings from the plant before them and stick them in rooting media. **Five minutes** will be allowed for completion of this practicum including the judging of the participant's performance in completing the practicum.

iii. Pinching Plants

A plant will be placed before each participant. The participant will be given instructions as to what they are to do to the plant by the event assistant in charge of the practicum. Participants will be judged on the procedures they follow in pinching the plant. **Five minutes** will be allowed for completion and judging of this practicum.

Pinching section may be completed and scored by multiple choice, true false, short answer, or scored using the provided pinching rubric.

Phase 5 – Rotational Practicums -- 75 points per practicum | Time 10 – 20 minutes dependent on activity selected.

Two of the following practicums will be selected from the list below. The two selected will be identified by the event coordinator and made available prior to the contest.

a. One-on-One (Selling)

Each participant will assume the role of a salesperson in a floriculture business (grower, florist shop, garden center, etc.) A customer (judge) with a specific need will approach the participant. The participant will help the customer meet his/her need by using sales skills. All supplies, information, and the business setting in which the participant works will be provided. **Ten minutes** will be allowed for this practicum (five minutes for dialogue with the customer and completion of the sales form and five minutes for the judge to score participant).

b. Media Selling

Each participant will be asked to create or evaluate advertising from the following: newspaper/catalog ad; radio script; newsletter; brochure/flyer; email; social media – face book, twitter, video – You Tube, web homepage. All information and materials needed to develop the advertisement will be provided. **Twenty minutes will be allowed for this practicum. Of the 20 minutes, 12 will be allotted for preparation, five minutes for oral/written presentation and three for judges to score.**

c. Make a Mixed Planter Combination

Each participant will make a \$35 mixed planter combination. All plant materials, growing media and containers will be provided. **Twenty minutes** will be allowed for each participant to make their mixed planter combination and complete the itemized listing of costs. At the beginning of the practicum, the participant will be provided with the retail price of plants and other materials to be used in their mixed planter combination. The markup is built into the retail price.

d. Make and package a corsage

Each participant will make and package a \$25 corsage. All plant and non-plant materials needed to construct and package the corsage will be provided. Each participant will be allow **20 minutes** to complete the construction of the corsage and complete an itemized listing of costs for the corsage constructed.

e. Identifying and controlling plants disorders

Pest and disorder items may be presented an intact specimen, photograph or preserved specimen (herbarium sheet, insect mount, etc.) Each specimen will be designated by a station number. The participant must identify the item and its classification (nutritional/environmental, insect/pest, or disease). The participant then must determine the damage location as well as chemical and culture controls for the disorder. Each participant will identify 15 specimens total for this event.

No specimens or items may be touched or handled in any way. **Fifteen minutes** will be allowed for this event. The plant disorders will come from the following list of disorders. Please disregard the numbering scheme found on the Disorder Practicum Scorecard Page FL-25, unless otherwise noted by contest officials. Contestants will mark their card with the following number in the Floriculture Disorders Practicum on Scantron scorecard.

Classification

1. Diseases
2. Insects/Pests/Mites
3. Nutritional/Environmental

Nutritional and environmental disorders

01. cold temperature (freeze)
02. cold water damage
03. ethylene damage
04. insufficient water damage
05. iron deficiency
06. nitrogen deficiency
07. phosphorus deficiency

Insects and Pests

16. Aphids
17. Fungus gnats
18. Leaf miner
19. Leafhopper
20. Mealybugs
21. Scale
22. Shore flies
23. Snails/slugs
24. Spider mites
25. Thrips
26. Whiteflies

Diseases

08. Botrytis – gray mold
09. Damping off
10. Downy mildew
11. Leaf spot (black)
12. Powdery mildew
13. Root rot
14. Stem rot
15. Tospovirus (INSV & TSWV)

Chemical Controls

1. Fungicide
2. Insecticide
3. Miticide
4. Molluscicide
5. No Treatment Listed

Cultural Control

1. Apply Complete Fertilizer
2. Correct/Adjust Temperature
3. Correct/Adjust Watering
4. Lady Bird Beetles (Lady Bugs)
5. Nematodes
6. Parasitic Wasps
7. Predatory Mites
8. Reduce Relative Humidity
9. No Treatment Listed

f. Handling A Hazardous Situation

Each participant will be presented with a hazardous situation that could develop in a floriculture business. The participant will be asked to explain how to resolve the problem. The participant will be evaluated on their understanding of the problem and procedures and practices followed in resolving the problem. **Ten minutes** will be allowed for this practicum.

SCORING THE STATE EVENT

Phase

Possible Points

1. Identification of Plant Materials	200
2. General Knowledge Examination	200
3. Problem-Solving/Decision-Making	200
4. Practicums	250
5. Rotational Practicums	<u>150</u>
Individual's Total	1,000

Note: The three highest scorers will make up the team score.

Team scores will be sum of the top 3 scoring team members. (3,000 points possible)

If the event ends in a tie at the state CDE, the total scores of the three team members in the order listed below will determine the winner:

- 1) General Knowledge Exam
- 2) Problem Solving
- 3) Plant and Equipment ID
- 4) Practicums

STATE AWARDS/SPONSOR(S):

Refer to Alabama FFA Contests and Awards Booklet at:
