Revised December 2023
Veterinary Science CDE

VETERINARY SCIENCE CAREER DEVELOPMENT EVENT

PURPOSE

The purpose of the veterinary science career development event is to promote college and career readiness by providing opportunities to develop technical knowledge and demonstrate skills in the field of veterinary science.

OBJECTIVES

Participants will demonstrate professional ethics, decision-making, communication and problem-solving skill.

Participants will demonstrate technical competency with small and large animals in the areas of anatomy and physiology; clinical procedures; identification; health and safety; and medical terminology.

ELIGIBILITY AND REGULATIONS

- For specific eligibility of participants, refer to the Contest and Awards Booklet.
- There will be a district elimination for this event. The top four teams in each district will advance to the state event.
- If a cell phone or smart watch is seen or heard in the possession of a competitor, that individual student will be disqualified from competition and receive a score of zero. Any participant in possession of an electronic device in the event area is subject to disqualification.
- Competitors must enter their **first and last name** as well as their **chapter number and name** on the scorecard or they will receive a score of zero. Judges will not attempt to figure out who the card belongs to.
- NO jewelry may be worn on the day of the state event, including rings, bracelets, earrings and exposed body piercing. Wrist watches are permitted.

DISCLAIMER

In the event that contests (CDE, LDE, TDE's) cannot be held in person, a virtual option may be conducted. Contest rules and guidelines are subject to change to meet the needs of a virtual experience.

DRESS CODE

Participants must wear closed toed shoes/boots (no sandals, crocs or slides) and long pants (jeans with no holes/ khakis/dress pants) or skirts that cover the knees if not in official dress. Leggings, jogging pants, yoga, lycra, are not permitted. Shirts should be long enough to be tucked in (no crop tops or midriff showing) and not contain vulgar or suggestive material or language. Contest where oral reasons are given should respect the professionalism of the event, and dress aligning with the profession is preferred. Official FFA Dress is an allowable form of dress for all events. **Consequences for not being in dress code will be a 25 % deduction in scores**

ALTERNATE POLICY

For district level events, if a chapter brings alternates there will be no more than two alternates allowed per team. Alternates will use a copy of the scan form (not an original) for those events scored via judgingcard.com. If more than four official scan forms are turned in for a chapter in one event, the highest score(s) for that team will be disqualified and deleted until the chapter only has four team members in the scoring system. Alternates must not be in groups with official team members.

For state level events, alternates are not allowed.

STATE AWARDS/SPONSOR(S):

Refer to Alabama FFA Contests and Awards Booklet at http://www.alabamaffa.org/forms_applications.htm

EVENT RULES

1. The team will consist of a maximum of four members. The team's total score will be based on the sum of the points earned by the three highest scoring participants on the team.
2. Students will need to bring number 2 pencils, calculators and clipboards (STATE ONLY).
3. Alabama FFA and the Auburn University College of Veterinary Medicine will provide paper, specific tools and equipment needed to complete practicums in the state event.
4. Because of sanitation reasons, some items needed in the event, such as stethoscopes will need to be provided by the participant or their chapter. Teams will be provided a list of specific items needed for a specific year based on the event activities. (STATE ONLY)
5. **District contests will consist of *the following* phases:**
 - Written Exam – 100 points
 - Identification – 100 points
 - Total Individual Score – 200 points
 - Total Team Score – 600 points

WRITTEN EXAMINATION (100 points) - Each participant will have 30 minutes to complete the 50 multiple choice questions. The objective exam is designed to determine team members' broad understanding of the veterinary science field. Topics for the exam may include behavior, disease (causes and sources, signs and symptoms), medical terminology, medical records, anatomy/physiology, regulations (federal, OSHA, MSDS), patient management, facility management, genetics, nutrition and husbandry.

IDENTIFICATION (100 points total) – Participants will identify equipment, parasites, and breeds/species for a total of 100 points (2 points per item). Thirty (30) minutes will be given for this activity. Identification lists are located at the end of this booklet. Equipment – Participants will identify pieces of equipment (actual equipment and photos). Participants will also need to have general knowledge about the use for each item.

Parasites – Participants will identify parasites (specimen and photos) and explain the life cycles of selected parasites.

Breeds – Participants will identify breeds of small and large animals (photos).

6. State finals will consist of *the following* phases:

- Written Exam – 100 points
- Identification – 100 points
- Math Practicum – 100 points
- Clinical Practicum – 50 points
- Handling and Restraint Practicum – 50 points
- Total Individual Score – 400

- Breeds – Participants will identify breeds of small and large animals (photos).

MATH APPLICATIONS PRACTICUM (100 points) – There will be 10 math practicum questions. Participants will have thirty (30) minutes to complete the entire math application practicum. Questions may include conversions, dose calculations, dilutions, cost calculations and invoices.

Example: Sophie, a golden retriever, and her owner have just moved from out- of-state and are re-establishing veterinarian relations at your clinic. Sophie's owner has provided you with her health records from her previous veterinarian. Sophie has been prescribed a diet plan by the previous veterinarian and had been coming into the clinic for weekly weight checks. Sophie's owner would like to continue the weekly checks. You weigh Sophie and record her weight as 19 kg. The owner would like you to tell her how much weight Sophie has lost. Sophie's last recorded weight was 43.2 pounds. How many pounds did Sophie lose since the last weighing? Answer: Sophie has lost 1.4 pounds since the last recorded weighing.

CLINICAL PRACTICUM (50 points) – Participants will be given one clinical procedure to complete. Students are expected to talk through the clinical procedure steps to a judge as they are being scored. Judges may ask participants for clarification on steps performed. All

clinical procedure scorecards are linked or may be found at [Veterinary Science Handbook.pdf | Powered by Box](#). Some examples include Administering the following: Aural Medication, Ophthalmic Medication, Intramuscular Injection, Subcutaneous Injection, Bandage Removal, filling a Syringe for Injection, Fecal Flotation with Fecalyzer, Opening a Surgery Pack, Prepare a Surgical Pack for Sterilization, Surgical Site Preparation, Prescription Filling, Removal of Sutures, Administer Oral Tablets/Capsule Time 5 minutes per student

HANDLING AND RESTRAINT PRACTICUM (50 points) –

Participants will be given one handling/restraint activities to complete (50 points each). Participants are expected to talk through the handling and restraining steps to a judge as they are being scored. Judges may ask participants for clarification on steps performed. All clinical procedure scorecards are linked or may be found at [Veterinary Science Handbook.pdf | Powered by Box](#). Some examples include, Removing a Cat from a Cage and Placing in a Cat Bag, Applying a Cat Muzzle, Restraint of the Cat in Lateral Recumbency for Femoral Venipuncture, Restraint of the Cat for Jugular Venipuncture, Applying Gauze Dog Muzzle, Applying Nylon Dog Muzzle, Removing Dog from Floor Level Cage to Restrain for Lateral Saphenous Venipuncture, Restraint of the Small Dog for Jugular Venipuncture, Restraint of a Rabbit, Haltering Ruminants, Haltering a Horse, Applying Elizabethan Collar, Snare Restraint of the Pig Time 5 minutes per student

TIE BREAKERS

District Event

In the event of a team tie, tiebreakers will be settled in the following order: combined individual identification total score; combined individual written exam total score

In the event of an individual tie, tiebreakers will be settled in the following order: identification score; written exam score.

State Event

In the event of a team tie, tiebreakers will be settled in the following order: combined individual practicum total score; combined individual written exam total score. In the event of an individual tie, tiebreakers will be settled in the following order: combined practicum score; written exam score.

Equipment and Materials Identification List

100. Anesthetic machines
101. Autoclave
102. Autoclave tape indicator

Veterinary Science CDE
Math Practicum Conversions and Formulas

The following conversions and formulas are commonly used in veterinary medicine and may be needed for the math practicum. These should be memorized, as they are used daily in practice. Other needed conversions can be calculated using these given equations.

Units of Volume:

$$1 \text{ cc} = 1 \text{ mL}$$

$$1 \text{ cup (C)} = 8 \text{ oz}$$

$$1 \text{ teaspoon (tsp)} = 5 \text{ mL}$$

$$1 \text{ pints (pt)} = 2 \text{ C}$$

$$1 \text{ Tablespoon (Tbsp)} = 15 \text{ mL}$$

$$1 \text{ quart (qt)} = 2 \text{ pt}$$

$$1 \text{ ounce (oz)} = 30 \text{ mL}$$

$$1 \text{ gallon (gal)} = 4 \text{ qt}$$

Units of Mass:

$$1 \text{ kilogram (kg)} = 2.2 \text{ pounds (lb)}$$

$$2 \text{ Tbsp} = 1 \text{ oz}$$

$$1 \text{ pound} = 454 \text{ grams (g)}$$

$$1 \text{ lb} = 16 \text{ oz}$$

$$1 \text{ oz} = 28.35\text{g}$$

$$1 \text{ grain (gr)} = 64.8\text{mg}$$

Units of length:

$$1 \text{ inch (in)} = 2.54 \text{ centimeters (cm)}$$

Units of temperature:

$$^{\circ}\text{C} = \frac{5}{9} (^{\circ}\text{F} - 32)$$

$$^{\circ}\text{F} = \frac{9}{5} (^{\circ}\text{C}) + 32$$

**In addition to the information above, students should be fluent in metric conversions. (Most veterinary calculations will use the following prefixes: kilo, unit (no prefix), milli, and micro)
